

Comprehensive Infection Control

When: Saturday, October 15 9am-1pm

Where: TBA, in Athens

Speaker and Subject: Nancy Goodwin, CDA, RDH, MEd.

The course provides a comprehensive overview of the principles and protocols that are involved in compliance with the infection control recommendations currently in place for dentistry. It is appropriate as initial training or as an update and satisfies the criteria set by OSHA for dental professionals. The training will be delivered in the following eight lessons:

Basic Microbiology

Disease Transmission

Personal Protection

Surface and equipment asepsis

Instrument and handpiece processing

Dental Unit Waterlines

Laboratory procedures and waste management

Radiography asepsis

CE: 4

Cost: ADHA members \$25, non-members \$40. This course will be offered to all dental professionals, so dentists can bring their entire clinical staff! There will be an office cap of \$200 to make it more affordable and accessible. Coffee, juice and light refreshments will be served at the mid-morning break. Space will be limited, so preregistration will be required. More details including a preregistration attachment will be sent in August, so look for it late this summer.
