

October 9th, 2009

Time and place: 9am-1pm, Athens Technical College Auditorium

Speaker: Nancy Goodwin, CDA, RDH, MEd will present a comprehensive Infection Control Course for all dental professionals.

The course is appropriate as initial training or as an update and includes the following areas: Microbiology for dentistry, Disease Transmission, Personal Protection, Surface and Equipment Asepsis, Dental Unit Waterlines, Radiology Asepsis, Instrument Processing, and Waste Management.

Course attendees will obtain access to online course materials for individual review, as well as Step-by-Step instruction for numerous protocols and competency check off sheets for use with new employees.

Dental Assistants and other office staff are welcome and encouraged to attend.

**This course covers all the areas required by the Board to satisfy the OSHA update requirement.

CE offered: 4

Cost: \$50/person (\$25 for ADHA members); \$200 office cap (i.e. if 6 people come from your office, the cost will not exceed \$200)

RSVP will be required to reserve your place. Midmorning snack will be served. I will send out another email early in September to ask for your response/reservation.
